KEY DATA

Jackie Tan joined UIG Architects Sdn Bhd as an Associate in 2012.

He commenced his architectural career as a Junior Architect at DP Architects Sdn Bhd in 2000 and left for Australia to further his studies in 2002. He graduated with Bachelor of Architecture (Honours), from University of Melbourne, Australia and re-joined the firm upon his graduation in 2004.

Jackie has worked alongside Reno and Seong as a Project Architect and Project Associate since 2000 and is involved in the design and management of high-end residential, commercial, transportation and infrastructure projects of varying sizes and complexities.

He regards the KEN Bangsar Serviced Apartments - a GBI Gold development, involving the planning and re-development of a 12-storey abandoned office building to a very desirable 15-storey Green Residences (80 units) as his choice project to date.

This development is the first residential development outside Singapore to have been certified with Singapore's BCA Green Mark Gold Plus Certificate for its Green Initiatives.

The project also won the FIABCI Award (Sustainability Development Category).
